Lyricmaker Crack

Lyricmaker is a simple-to-use application that helps users find words which rhyme with given text, in order to help them compose lyrics seamlessly. It can be handled even by users with limited or no experience in software applications, thanks to its overall simplicity. The interface is based on a regular window with a plain and simple layout, where you can input the word and select the preferred language. Lyricmaker supports English, German, Spanish and Italian. Unfortunately, the app does not provide buttons for exporting the results to file, copying them to the Clipboard, or printing them for further scrutiny. However, you can make a text selection and use the global Copy hotkey or open the context menu to copy it to the Clipboard. Lyricmaker is not a concern to the computer's overall performance, as it runs on a very low amount of CPU and RAM. It has a good response time, displays results almost instantly and works well, without causing the operating system to hang, crash or pop up error dialogs. We have not come across any issues throughout our evaluation. All in all, Lyricmaker serves its purpose. Unfortunately, the program has not been updated for a very long time, and it is not supported by newer operating systems. System Requirements: 4 GB RAM or more 1 GB free space (minimum) 7.4 or higher Screenshots of Lyricmaker Download Lyricmaker 4.1.0.0 now from Softonic: 100% safe and virus free.
