Meeting Manager Client Server

What's New In?

CyberMatrix Meeting Manager Client/Server is a simple tool for planning meetings within a team using a client and a server. The client can be installed on a member's computer to manage bookings and the server can be installed on a central server computer to provide access to all clients. Key Features: • Allow multiple users to easily set up a meeting on a computer running the server • Enable administrators to set up access controls to restrict access to the server to selected computers • Create or edit appointments directly within the application • Display all bookings and all changes made to existing bookings • Support different planning styles and media for each meeting • Send email notification and create confirmation receipts for meetings • Customize the time zone and day of the week when scheduling meetings • Sync appointments between computers running the server and the client • Synchronize appointments with all bookings in the system • Synchronize calendars between a central server and all client computers • Sync bookings and changes made to appointments between client computers and the central server • Synchronize calendar events across all client computers • Add notes and email addresses to meetings • Schedule the same meeting for each day of the week • Export the meeting details as an HTML or XML file • Export all bookings as an HTML or XML file • Preview any meeting in its original format in an online meeting room • Edit meeting notes • Add or edit attendees • Add or delete attendees using the "Attendees" and "Exclude Attendees" tabs • Set the meeting starting time and duration • Manage resource availability • Toggle the "Book ", "Unbook " and "Create " menus • Automatically notify attendees when the meeting time changes • Send notification emails to all attendees when the meeting starts • Send notification emails to all attendees when the meeting ends • Link to the resource owner by email or phone • Create a resource group to organize appointments • Auto-rename the meeting group • Sort meetings by type, date or name • Sort meetings by type, date, topic, notes, agenda or attendees • Add recurring meetings • Synchronize a meeting with another meeting in a calendar • Sync appointments with all bookings in the system • Synchronize calendar events between a central server and all client computers • Sync bookings and changes made to appointments between client computers and the central server • Bookings are automatically deleted when the meeting ends • Delete all bookings when the client shuts down $25.00 CyberMatrix Meeting Manager is a Windows application that can be used for scheduling meetings with your staff within companies. The client/server edition enables team leaders and members to organize virtual meetings within a
