It shows the actual space used by your system and by individual drives. You can also create disk space usage charts to check and improve your system. Boot Camp Commander Free 5.8.3 [↗](#) Boot Camp can be a lifesaver when you need to do an emergency install of Windows on your Mac. But sometimes, a traditional installation is a better option than a few minutes of Boot Camp. Boot Camp Assistant 5.8.4 [↗](#) Boot Camp is a great way to install Windows on your Mac but you can't always be around when it's time to choose which Windows version to install. Clonedrive 1.2.9 [↗](#) If you're looking for a simple, straightforward way to backup files to the cloud, Clonedrive is a great solution. DriveSpy 1.3.3 [↗](#) DriveSpy is a small, free application that lets you check your disk usage of both your system drives and any attached USB and Firewire drives. Fossilizer Pro 8.3.4 [↗](#) Fossilize is a modern, free, high-quality GUI for the Mac OS X Open Transport Fossilizer. It is specifically designed to save you time, reduce the chances of data loss, and get you up and running quickly. Fusion Drive Lite 2.6.3 [↗](#) From a quick peek at the temperature of your CPU and drive temperatures to create charts of hard drive activity, Fusion Drive Lite will get you an overview of your hard drive temperatures and activity. Fusion Drive 1d6a3396d6

DriveSpace Product Key

What's New In DriveSpace?

DriveSpace is a great application that can help you quickly get an overview of the data on your hard disk and can also help you get detailed information on it. The application's main window presents a list of items that have been installed and its status and usage. You will also find a chart that gives you information on the disk usage of the most important folders as well as the folders installed on the hard disk. If you have other applications, you will also be able to link them to DriveSpace to see the disks and folders that they use, in a similar way to the icon on your desktop. DriveSpace is compatible with Microsoft Windows 95, 98, ME, 2000, XP, Vista, Windows 7, Windows 8, Mac OS X. Main Features:

- View the details of the files and folders installed on your hard disk, as well as the ones that were installed along with DriveSpace.
- You will also be able to get information on the amount of available space left on the disk and on the free space that is available on each of the drives.
- You will be able to easily sort the data in lists and on charts that include folders and drives as well.
- You will be able to easily and quickly link the application to other applications and on the desktop, in order to see the drives and folders that they use.

Other important information: This is an executable program. There may be a need to register it or activate it. However, this application is generally activated at the Windows startup. DriveSpace should not be removed or reinstalled during this process. Please run the setup file and follow the instructions on the screen to continue with the activation process. This setup program will begin downloading the software. This is typically an unattended process. Please be patient during this time. DriveSpace will not work if the download is not complete. Requirements:

- Microsoft Windows 9x, Me, 2000, XP, Vista, Windows 7, Windows 8

All software products are the copyrighted of their owners. Please visit the manufacturer website for more information. DriveSpace is freeware. However, some third-party applications require the registration or activation of DriveSpace. DriveSpace is compatible with Microsoft Windows 95, 98, ME, 2000, XP, Vista, Windows 7, Windows 8. If you have any issues while installing or using DriveSpace, please read the FAQ file or contact our Support. If you would like to remove the product from your computer, just disable the product from the Add or Remove Programs control panel or from Programs and Features.
