From the section Women's Football Korea Republic are aiming to beat Japan in their Women's World Cup semi-final Standout performances from Brazil, Japan, Mexico and USA helped lift the Women's World Cup off the floor to reach the Women's World Cup semi-finals. Group F winners USA beat Nigeria 1-0. England's Lionesses, already through to the last four, produced another dramatic finish after their opponents had levelled the scores. Spain and Germany each beat Sweden 1-0 to book their place in the semi-finals. England won the tournament in 1999, 2003, 2007, 2015 and 2019. The USA, who beat Japan 3-0 in the last 16, win their final against South Korea. The winners of that game will play either Sweden or England, who play Denmark in Thursday's first semi-final. They are following in the footsteps of England and the USA who reached the same stage on their debut campaigns in 1991 and 1999. 'The tournament turned out to be what it was all about' England's goalscorer Ellen White-Huggins told BBC Sport: "The tournament turned out to be what it was all about. "We faced the best and came out on top. "It has been the biggest competition to play in for all of the girls and the staff. The team has come together and we are ready to go on and win this tournament. "It is really disappointing for the team in the last minute because we thought we were going to get there.

I cast spells, use melee weapons, and cast healing spells to sustain myself while I gear myself for battle. I read as much as I can, be it books or scrolls, to prepare my mind for what I expect will be a difficult challenge. The lands west of High Rock, the Lands Between, are now a muddy battleground where the dregs of the population eke out a new life, scrambling to survive by any means necessary. A handful of people, called the Travelers, travel between the land of Tamriel and the Lands Between to acquire and sell things and people, and are now in the midst of a desperate struggle to remain alive when a terrible evil stirs the bogs and marshland east of the city of Ustengrav. Early morning. A man who has not stepped foot outdoors in over a decade decides it's time to walk the streets of Falkreath. The first thing he notices is that many of the tiny yellowed tiles on the sidewalk have sunk below the level of the rest of the street. He looks at the grey stones of the houses and wonder how they fit together without sinking into the ground. He looks at the grey columns of the buildings and wonder why the mortar holding them together have turned yellow. The game is made by Trion World Studios, the maker of Rift & Shadowlands. ----- Elden bff6bb2d33
