Cheers, World of Guns Team. Elon Musk is a poster boy for a tech ideal. His innovative take on Tesla cars,

energy and more has made him a billionaire and instigated an intense debate about the social impact of the web entrepreneurs' work. For all the debate, though, Tesla has a lot of fans. Its rockets, which seem to waver between elegance and terrifying, still excite space buffs. The company's game-changing electric cars take off in 2014 and the first Teslas are on the road this week. The campaign for June's Singularity Summit, a conference Musk founded in New York, is raising money to start building its first manufacturing plant for the Roadster, a premium sports car, which will be unveiled on Saturday at the site of the show, upstate New York. (The

car's head-turning design is a hybrid of an F-117 stealth fighter and an alien spaceship, according to Musk.) Musk has captivated many with his take-no-prisoners approach to the world's most vexing problems. But the biggest stir, and the most intrigue about Musk himself, has been generated by his claim of success in settling a space-mining dispute between two billionaires, PayPal founder Elon Musk and the late Internet entrepreneur, Philip K. Dick. "This was a very strange conversation,

5 Minutes Rage is a fast-paced, highly-competitive multiplayer mini-game about gunning down opponents in a deadly brawl, during a 5-minute match. You'll be able to choose between two teams, each controlled by a player equipped with a Cannon, a Shield and a Machine Gun. Team One is represented by red characters, while Team Two

wears blue. The opposing team is controlled by the CPU, which means you'll need to get the ball (the only one available at the beginning of a match) and drive it into their goal. Just like in the original version of the 5 Minute Rage, the CPU can't be blown up, so it's up to you and your team to score as many goals as possible and bring it back to your goal! 5 Minutes Rage - Hatred Edition also features a postmatch mini-game called "Rage Invaders", where you must open up the opponent's goal and grab the ball. If you can reach the point where the goal opens, it's yours! Rage Invaders is included to give players a break during long matches, but it's also a

challenge for free-civility players! Be careful! The CPU will try to kill you, for example launching your shield at you, so you'll have to use your Machine Gun wisely if you want to advance. Who ever named this DLC pack, "The Coma 2: Vicious Sisters" should be shot! It is a very stupid DLC pack because it only includes 1 skin and 1 portrait. This is a skin only pack and there is no difference between the default Mina and the skin pack (just a different skin).

This is bad for a pack that costs 6.99. All the content is worth this price so why not make it worth the money? 1.

There are only three costumes available in this DLC pack so one should be enough. 2. Mina is by far the only playable character in this pack so make the pack worth the money! This is a good pack with a bad name. If you like the skin then you should buy the entire pack. It contains the default Mina skin (that you already own) and a very new skin with the brand new Bully Girl, Mina from Sehwa High! This is an okay DLC pack. There are only three costume choices that are worth buying. The usual Mina and The Bully Girl are at the beginning and

middle of the DLC pack so nobody needs them. They should have included some kind of new events and people but they didn't. On the plus side, this is the first DLC pack to feature a new skin of Natsuki without a new portrait. That is a great bonus. On the negative side, the DLC pack didn't really contain anything new and they put a weak price on something they could have given away for free. You should have gotten the Mina skin, even if it's for free, but this DLC pack didn't give it to you so you have to pay for a skin and a portrait. That's what you get for getting a DLC pack that could have been a FREE DLC pack! 5. When did this DLC pack come

out? Why did you ask this? I don't see why this is such a bad pack. I find it pretty cool to have a new skin and portrait. This is the first DLC pack that Natsuki has been available in over a year so I'm happy she is back. The pack doesn't include anything new, but it is a nice little bonus for me since I had already bought her picture. 2. There are only three costumes available in this DLC pack so one should be enough. Ah, yes, it's Mina, and I do like her, she is pretty nice in

own words, in order to share the ideas and experiences of the participants with a wider audience. They gathered information from post-Games interviews with 25 men and women from 21 different national teams. Their dietary behaviours and knowledge of food safety were examined and compared, before and after they competed. The interviews with the athletes revealed that they are aware of the amount of energy they need to ingest every day, the issues of weight loss, gaining

weight, and the safety of food and eating in competition. They explained that what they most enjoyed about the Games was the atmosphere and how it connected them to their homes and their friends, and that enjoying food was a big part of this. They also spoke about their engagement with nutrition and food, and the ways in which they have learnt about this during their careers. These findings are illustrated by the screenshots in Figure 1. Figure 1: Athletes' dietary knowledge and understanding Before

and after the Games, the researchers also carried out a survey that aimed to replicate the focus groups. This survey consisted of a self-completion questionnaire of closed questions, and was used to gather information on a number of aspects of the diet and nutrition of athletes. The respondent's diet and nutrition knowledge (as reflected by answers to the questions that follow), and awareness and application of nutritional guidelines (as reflected by responses to the

questions about the dietary guidelines that follow), were assessed. Figure 2: An overview of the self-reported dietary knowledge and attitudes of Paralympic athletes.
