VF 6.6 does not provide full updates for Microsoft Developer Studio. Starting with version 6.6, the Compaq Fortran Companion Products CD-ROM will no longer ...

#Fortran version updates for Microsoft Developer Studio Fortran versions of Microsoft Developer Studio versions 4.2, 4.3, 4.5, and 6.1 are available on the Compaq Fortran Companion Products CD. The CD contains updates to Fortran 90 and Fortran 95, as well as the Fortran 97 version (the Fortran 95 version, which Microsoft will distribute later, is supported mostly in debugging mode).
