Kidz CD 1 offers a wide selection of Kidz sites for the younger generation of children. Kidz Navigator has the full functionality of a standard Internet Browser. Use the Help button on the toolbar to explore all of the commands available. You can easily save your favorite sites in your personal list to visit later. The links contained on the CD are organized into the following categories: · News & Magazines · Games & Activities · Entertainment & Music · Education · Internet Safety In addition to these categories, additional sites have been added. · Books The links in each category are divided into alphabetical order by continent. List of sites : · African · American · Australia · Asian · European · Multi · UK Kidz CD 1 is full screen · Kidz CD 1 has no print function · Kidz CD 1 is full screen · Kidz CD 1 has no print function Amazon.com Review: Kidz Navigator 1 for Windows is a great tool for younger children. It's designed for ages 6 and up, and most of the sites are meant for kids, but there are several that are useful for adults as well. With this program, you can find your way around the Internet without having to know the Web address for every site. Kidz Navigator has a simple interface that's easy to use. There are four main sections to the program. You can browse through the Internet by selecting an icon of a cartoon character or a movie actor. You can also search for a keyword or browse the news by country. A quick search pulls up a wide variety of links, and the

student or alumni member of the UA Campus Clubwiz, please visit our website at: If you want to learn more about this service and its benefits, you can contact us at the following: For more information on UArizona Campus Clubwiz, contact: Campus Clubwiz PO Box 2820 Tucson, AZ 85712-2820 (602) 542-1915 Mailing Address: U.S. Bank PO Box 2820 Tucson, AZ 85712-2820Q: Using a different font in a stylesheet How do I use a different font from what the browser is set to using CSS? I'm trying to use the font 'ETHER_HARLEY_DONT_CARE' in my stylesheet, but it seems the browser is always using a different font. #container { font-family: 'ETHER_HARLEY_DONT_CARE', 'Segoe UI', sans-serif; } Is there something I'm missing? A: #container { font-family: 'ETHER_HARLEY_DONT_CARE', 'Segoe UI', sans-serif; } The thing is you have no selector before or after this declaration, it's like saying font-family: 'Ether', 'Harley
