Guides and TUTORIALS PRECARIOUS FOOD. PROFITECLUB.CA A Monkey in the Backseat of a Gremlin GT. Uncovered The Truth About Vending Machines Q: Discord bot has since stopped working after testing a discord.py script in python I have been working on a discord.py bot for my Discord server to transfer files between teammates. Before, I have been successfully testing the script, but now it's stopped working. (I had used the -y flag for silent mode) Here is the code (The bot works fine without the sending function): import discord from discord import Game client = discord.Client() @client.event async def on_ready(): channel = client.get_channel('#This is the channel') await channel.send('Welcome to the bot!') @client.event async def on_message(msg): message = msg.content if msg.content.startswith('!') or msg.content.startswith('!'): await client.send_message(msg.channel, "No uploading for this channel") return elif not msg.content.startswith(""): await client.send_message(msg.channel, "Message has been ignored, Uploading file...") #if msg.content!= "" or msg.content!= "" : # filepath = msg.content[1:] # with open(filepath) as file_object: # file_object.read() #try: # file = msg.content # with open(file, 'rb') as file_object: # await client.send_file(file_object, '/') #except IOError: # await client.send_message(msg.channel, "Error sending file") # return
